

# GLOBAL CLIMATE ACTION SUMMIT

---

Taking Ambition to the Next Level

September 12-14, 2018  
San Francisco, California

# GLOBAL CLIMATE ACTION SUMMIT

An Update for Health Partners

Hosted by Elizabeth Baca, MD, MPA  
Governor's Office of Planning and Research

July 10, 2018

- Background
- Summit Leadership
- Health Integration
- Challenge Areas
- Affiliated Events
- Opportunities for Involvement
- Q and A

## Why Now?

## **2018 is a consequential year.**

At COP 24 in Poland this December, countries will “take stock” of their collective climate progress. The results will inform the next round of national pledges (Nationally Determined Contributions, or NDCs) in 2020.

## **Countries can do more.**

The Summit will underscore the wealth of actions states and regions, cities, businesses and citizens. Together we can do more and call on countries to make more ambitious commitments.

The Summit’s momentum will carry through to the UN General Assembly and COP24 in Poland in 2018, and to the UN Secretary General’s Climate Summit in 2019, all with the goal of getting countries to redouble their climate ambition by **2020.**

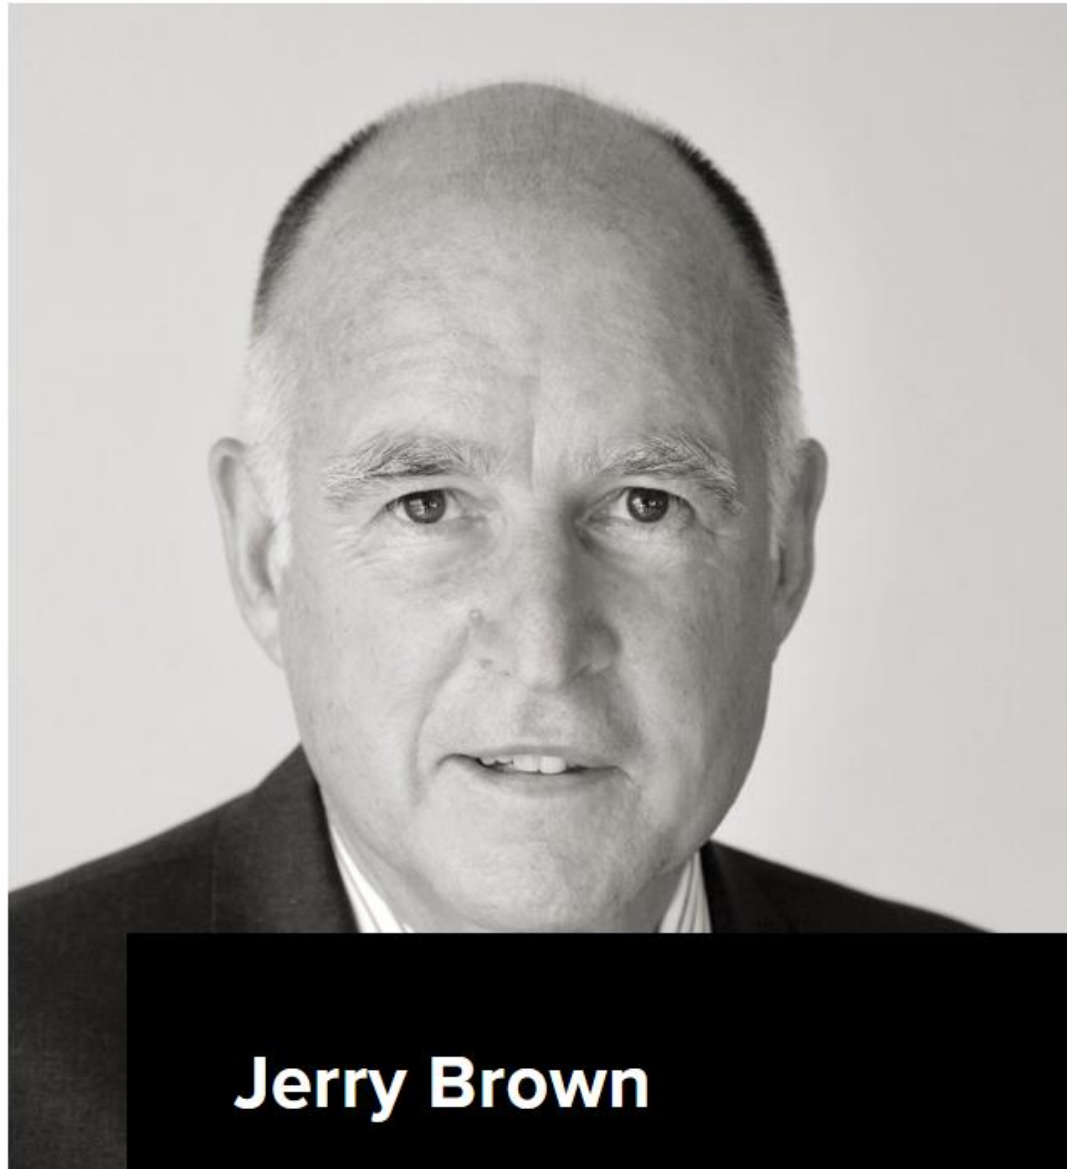

## **The world cannot wait. It’s time to step up.**

We need all sectors of society, including national governments, to live up to the collaborative, ambitious spirit we saw in Paris.

The Summit will underline the risks but also the inordinate opportunities from acting on climate change; it will showcase the enormous momentum from states and regions, cities, businesses and civil society; and it will call on governments to seize the moment.

# Summit Leadership

**Jerry Brown**

Governor of California

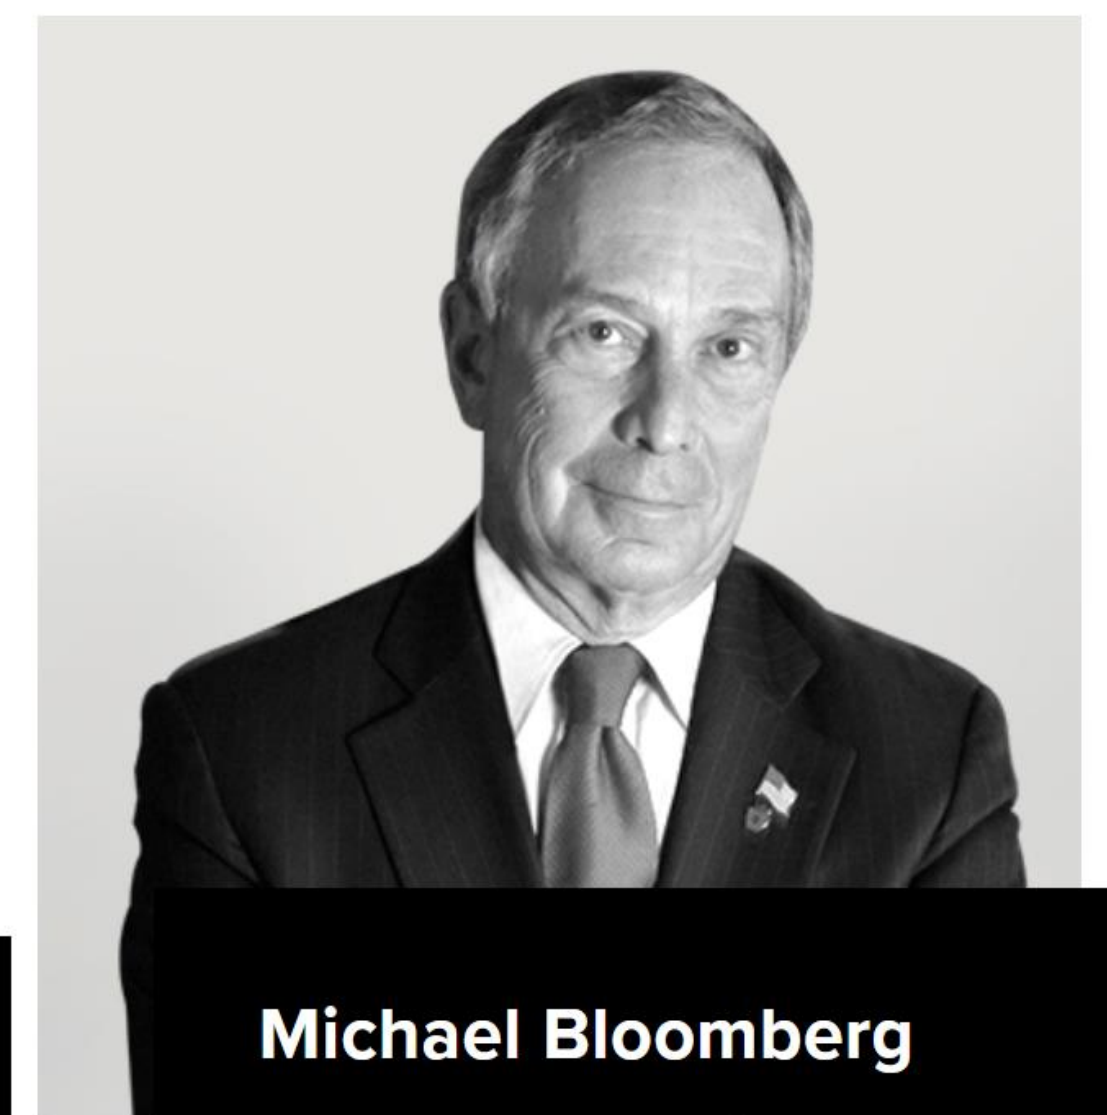

**Patricia Espinosa**

Executive Secretary of the U.N.  
Framework Convention on Climate  
Change

**Anand Mahindra**

Chair of the Mahindra Group

**Michael Bloomberg**

U.N. Secretary General's Special Envoy  
for Climate Action

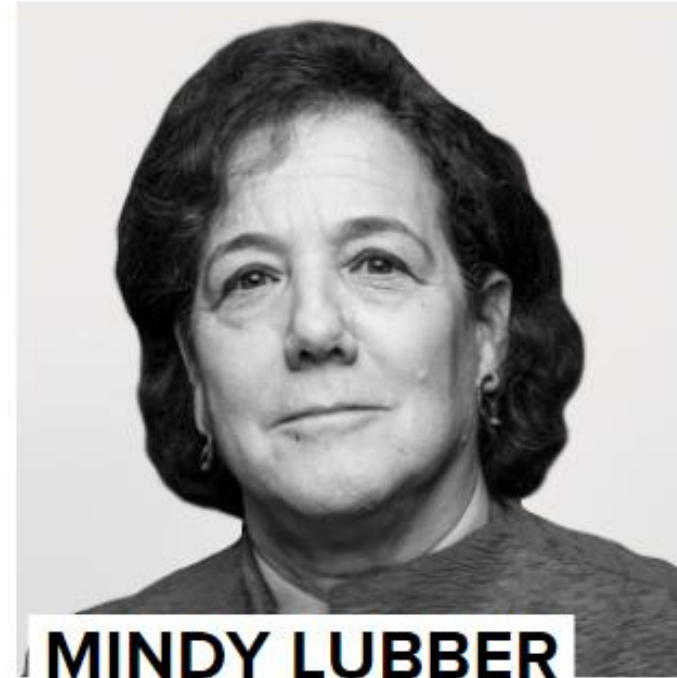

# ADVISORY COMMITTEE

**MARK WATTS**

Executive Director,  
C40

**MINDY LUBBER**

President & CEO of  
Ceres

**WAEI HMAIDAN**

Executive Director,  
Climate Action  
Network International

**ANDREW HIGHAM**

Facilitator of the  
Advisory Committee  
& CEO of Mission  
2020

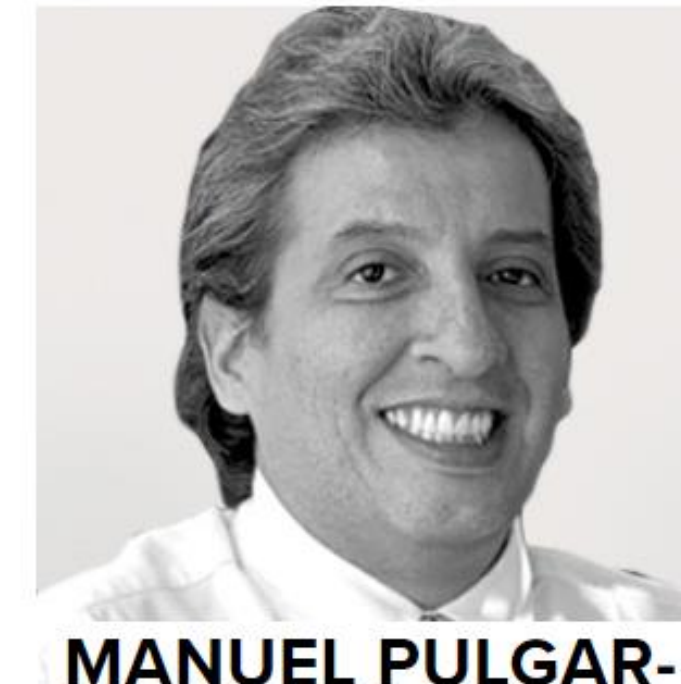

**ARON CRAMER**

President and CEO,  
BSR

**HELEN CLARKSON**

CEO, The Climate  
Group

**MANUEL PULGAR-  
VIDAL**

Leader, Climate and  
Energy Practice at  
WWF International  
and former President  
of COP 20

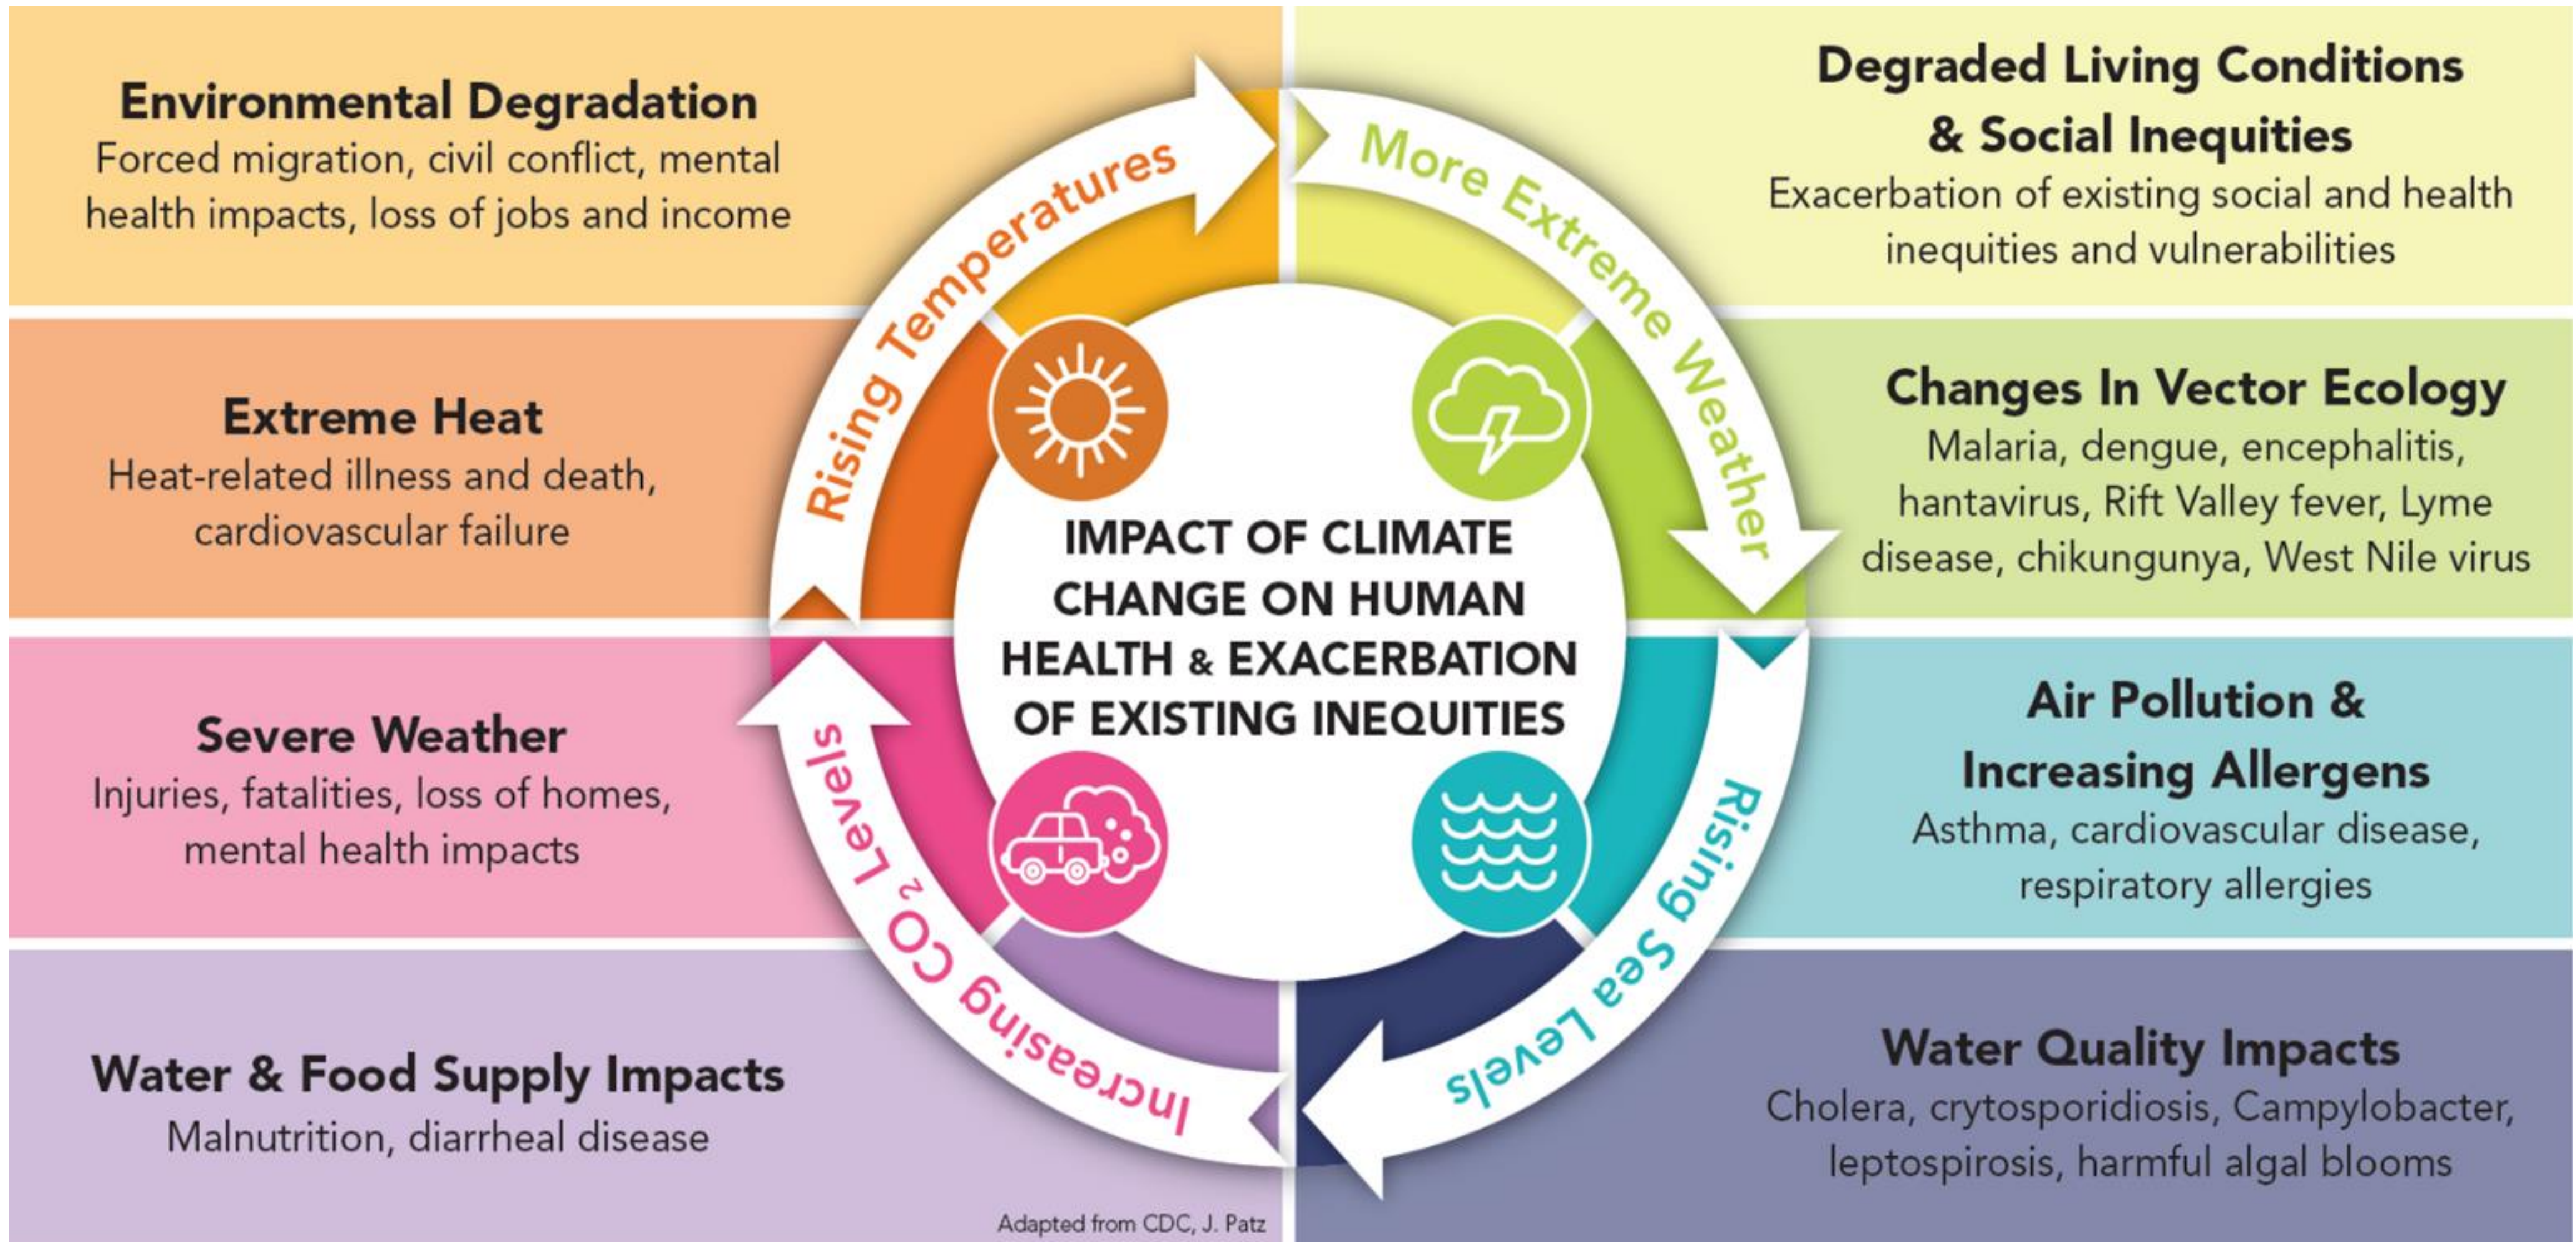

# One team, many partners

## Opportunity to integrate Health

Lancet Commission on Health and Climate Change said a comprehensive approach to climate change is “the greatest global health opportunity of the 21st century.”

## Challenge Areas

This is really about stepping up to make major commitments- bringing together cities, businesses, non-profits, and many other partners

The Summit will spur climate action in key areas:

## 1. Healthy Energy Systems

*A global shift toward clean and equitable energy and mobility systems advances climate progress and enable healthy people and places*

## 2. Inclusive Economic Growth

*Climate leadership, and the clean technology and energy transition generate good jobs, broad-based economic opportunity, and inclusive, resilient growth*

## 3. Sustainable Communities

*Sustainable buildings, cities, communities, and infrastructure are clean, healthy and livable and improve quality of life for all*

## 4. Land & Ocean Stewardship

*Forests, food, lands and other ecosystems play a critical role in mitigating climate change and making our world more resilient, while also ensuring sufficient food supplies for a growing population*

## 5. Transformative Climate Investments

*Investments are mobilized on the scale needed to achieve the Paris Agreement, spur innovation and accelerate a clean and resilient economy*

The Summit will spur climate action in key areas:

## 1. Healthy Energy Systems

*A global shift toward clean and equitable energy and mobility systems advances climate progress and enable healthy people and places*

## 2. Inclusive Economic Growth

*Climate leadership, and the clean technology and energy transition generate good jobs, broad-based economic opportunity, and inclusive, resilient growth*

## 3. Sustainable Communities

*Sustainable buildings, cities, communities, and infrastructure are clean, healthy and livable and improve quality of life for all*

## 4. Land & Ocean Stewardship

*Forests, food, lands and other ecosystems play a critical role in mitigating climate change and making our world more resilient, while also ensuring sufficient food supplies for a growing population*

## 5. Transformative Climate Investments

*Investments are mobilized on the scale needed to achieve the Paris Agreement, spur innovation and accelerate a clean and resilient economy*

# CHALLENGE 1: HEALTHY ENERGY SYSTEMS

**A global shift toward clean and equitable energy and mobility systems advances climate progress and enable healthy people and places**

**Summit goal:**

Deliver a global shift in renewable power and transport aligned to what scientists say is required to prevent dangerous climate change.

**How can my city, state or company engage?**

Join RE100, EV100 or EP100 and contact The Climate Group to learn more: [info@re100.org](mailto:info@re100.org), Donna Hume, [dhume@c40.org](mailto:dhume@c40.org)

**THE °CLIMATE GROUP**

# CHALLENGE 1: HEALTHY ENERGY SYSTEMS

A global shift toward clean and equitable energy and mobility systems advances climate progress and enable healthy people and places

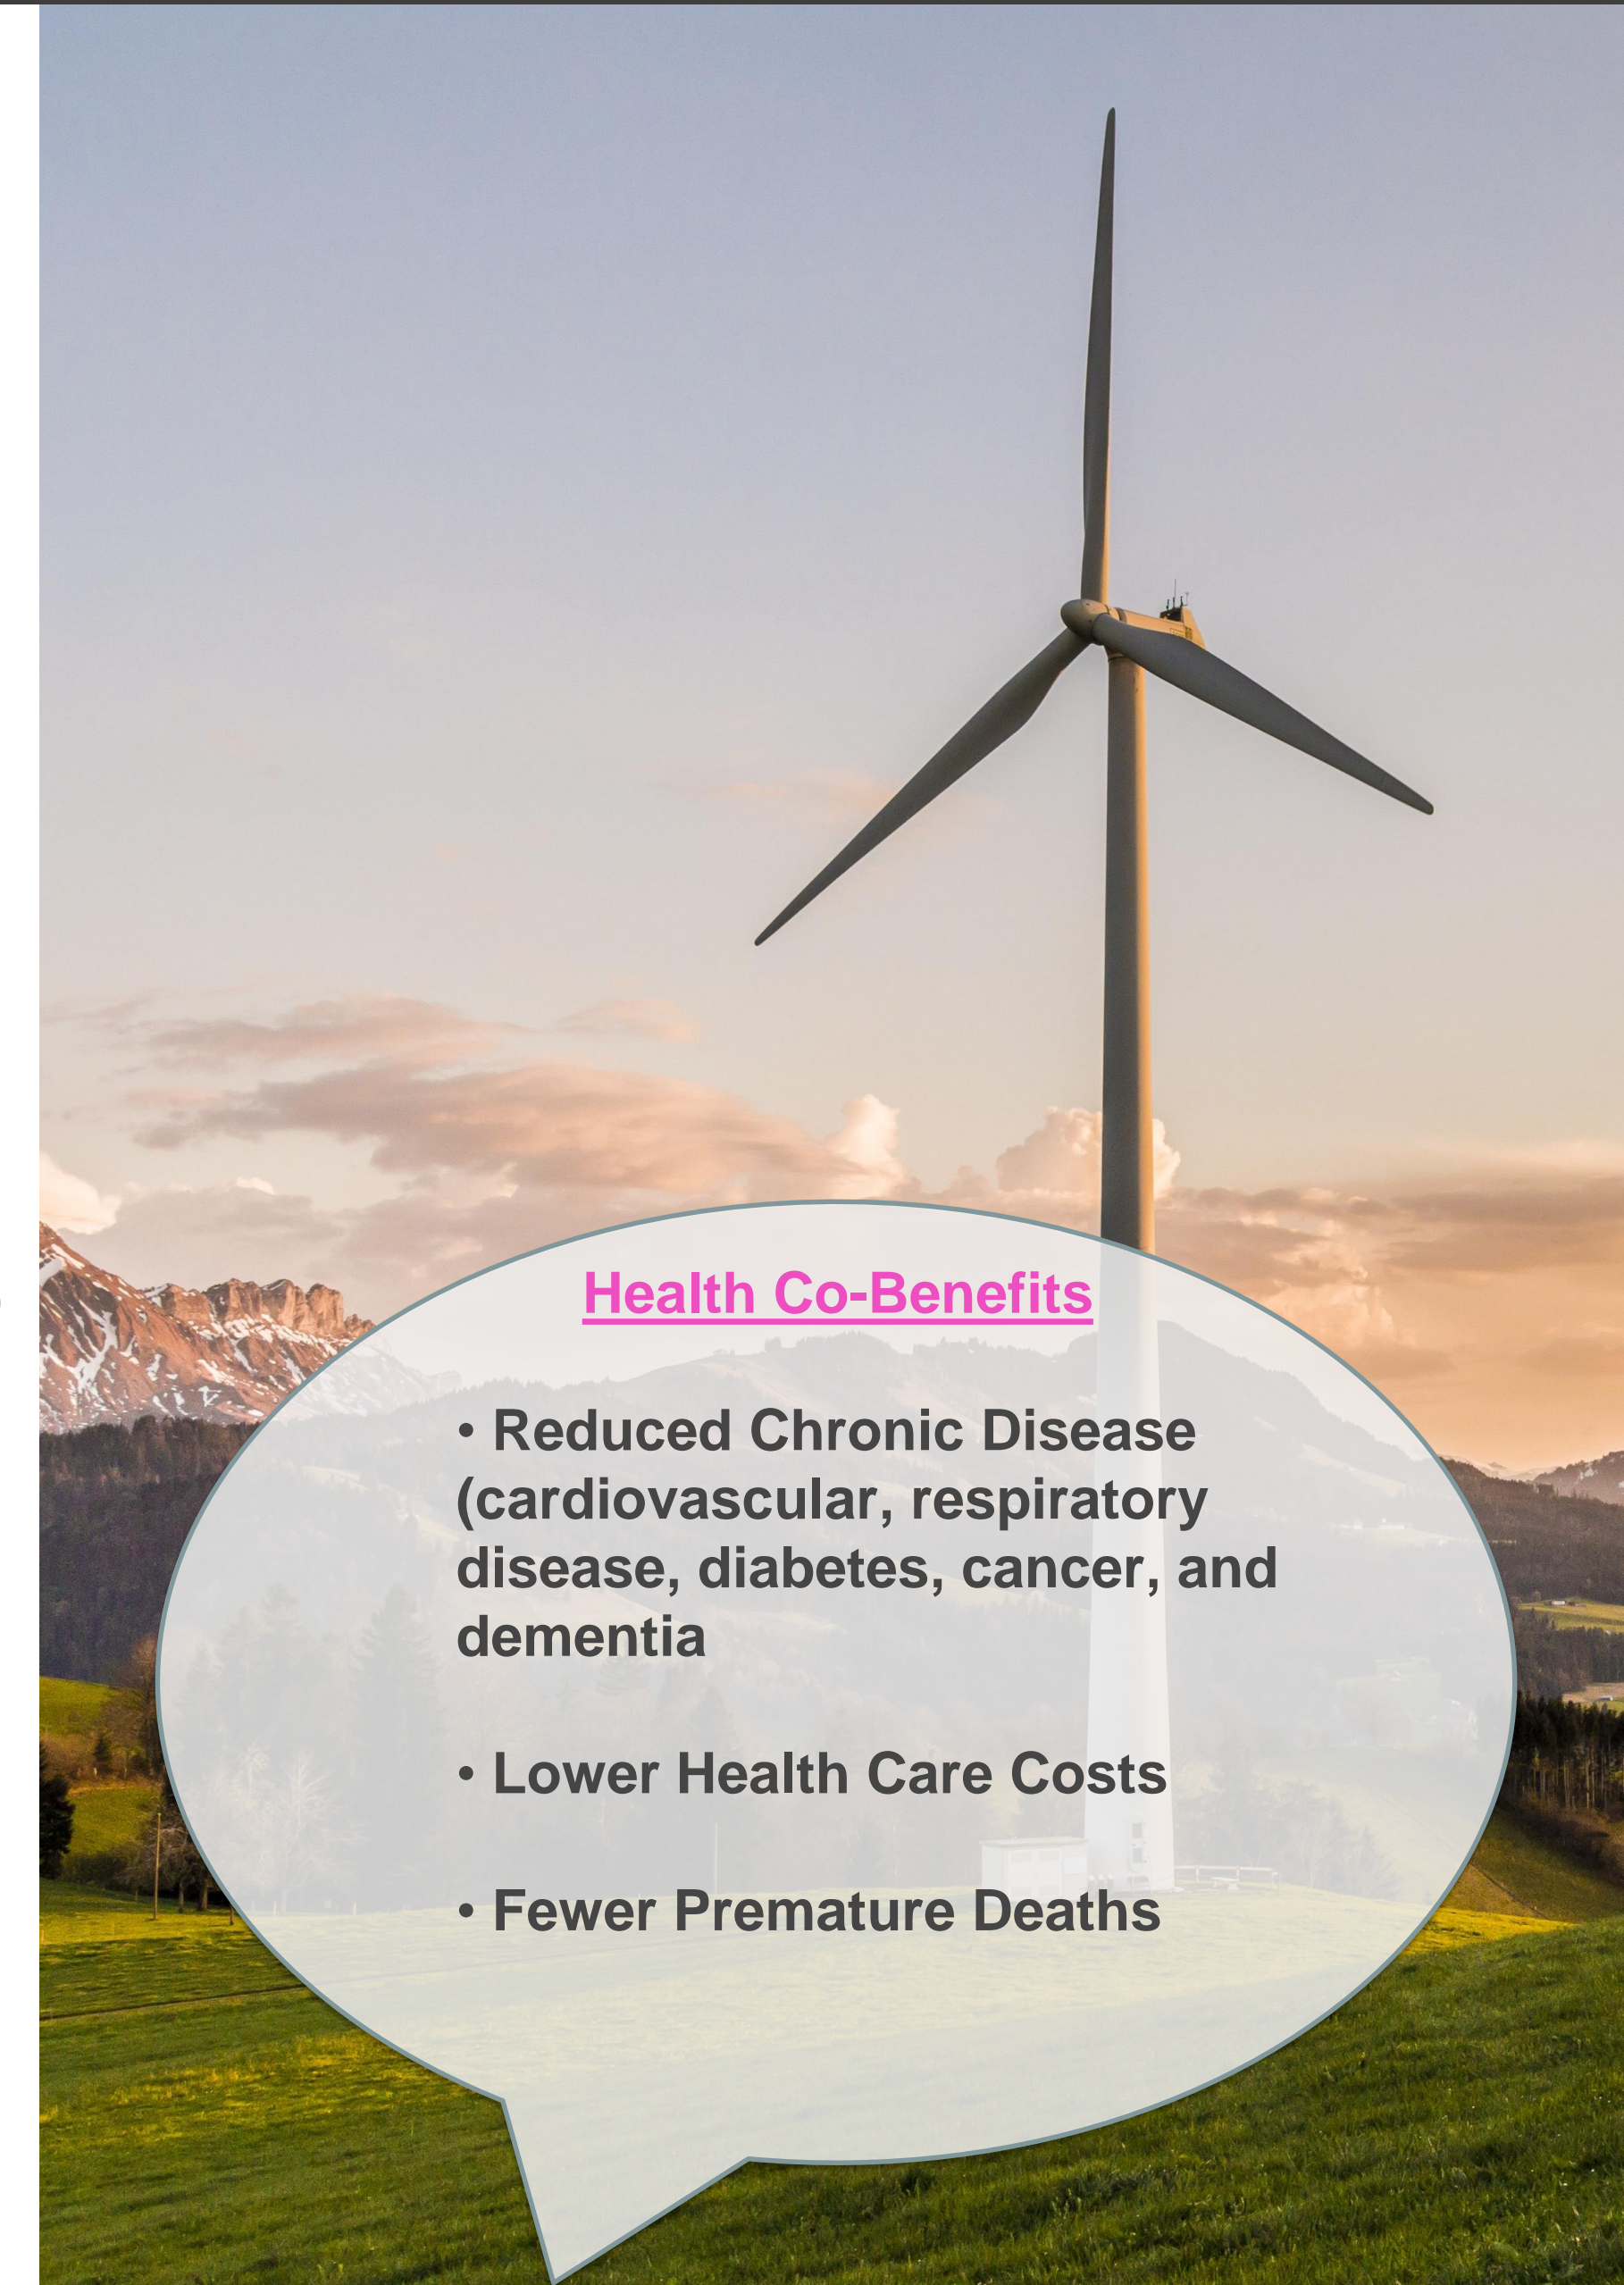

## Summit goal:

Deliver a global shift in renewable power and transport aligned to what scientists say is required to prevent dangerous climate change.

## How can my city, state or company engage?

Join RE100, EV100 or EP100 and contact The Climate Group to learn more: [info@re100.org](mailto:info@re100.org), Donna Hume, [dhume@c40.org](mailto:dhume@c40.org)

**THE CLIMATE GROUP**

### Health Co-Benefits

- Reduced Chronic Disease (cardiovascular, respiratory disease, diabetes, cancer, and dementia)
- Lower Health Care Costs
- Fewer Premature Deaths

# CHALLENGE 2: INCLUSIVE ECONOMIC GROWTH

## Climate leadership that creates inclusive economic growth

### Summit goal:

Generate more ambitious commitments from the private sector related to three elements:

1. Reach 500 commitments to setting science-based targets (SBTs)
2. Build climate resilient supply chains and communities
3. Make a just transition to climate-friendly economies

### How can my organization engage?

Contact BSR to learn more: Kelly Gallo, [kgallo@bsr.org](mailto:kgallo@bsr.org)

## Climate leadership that creates inclusive economic growth

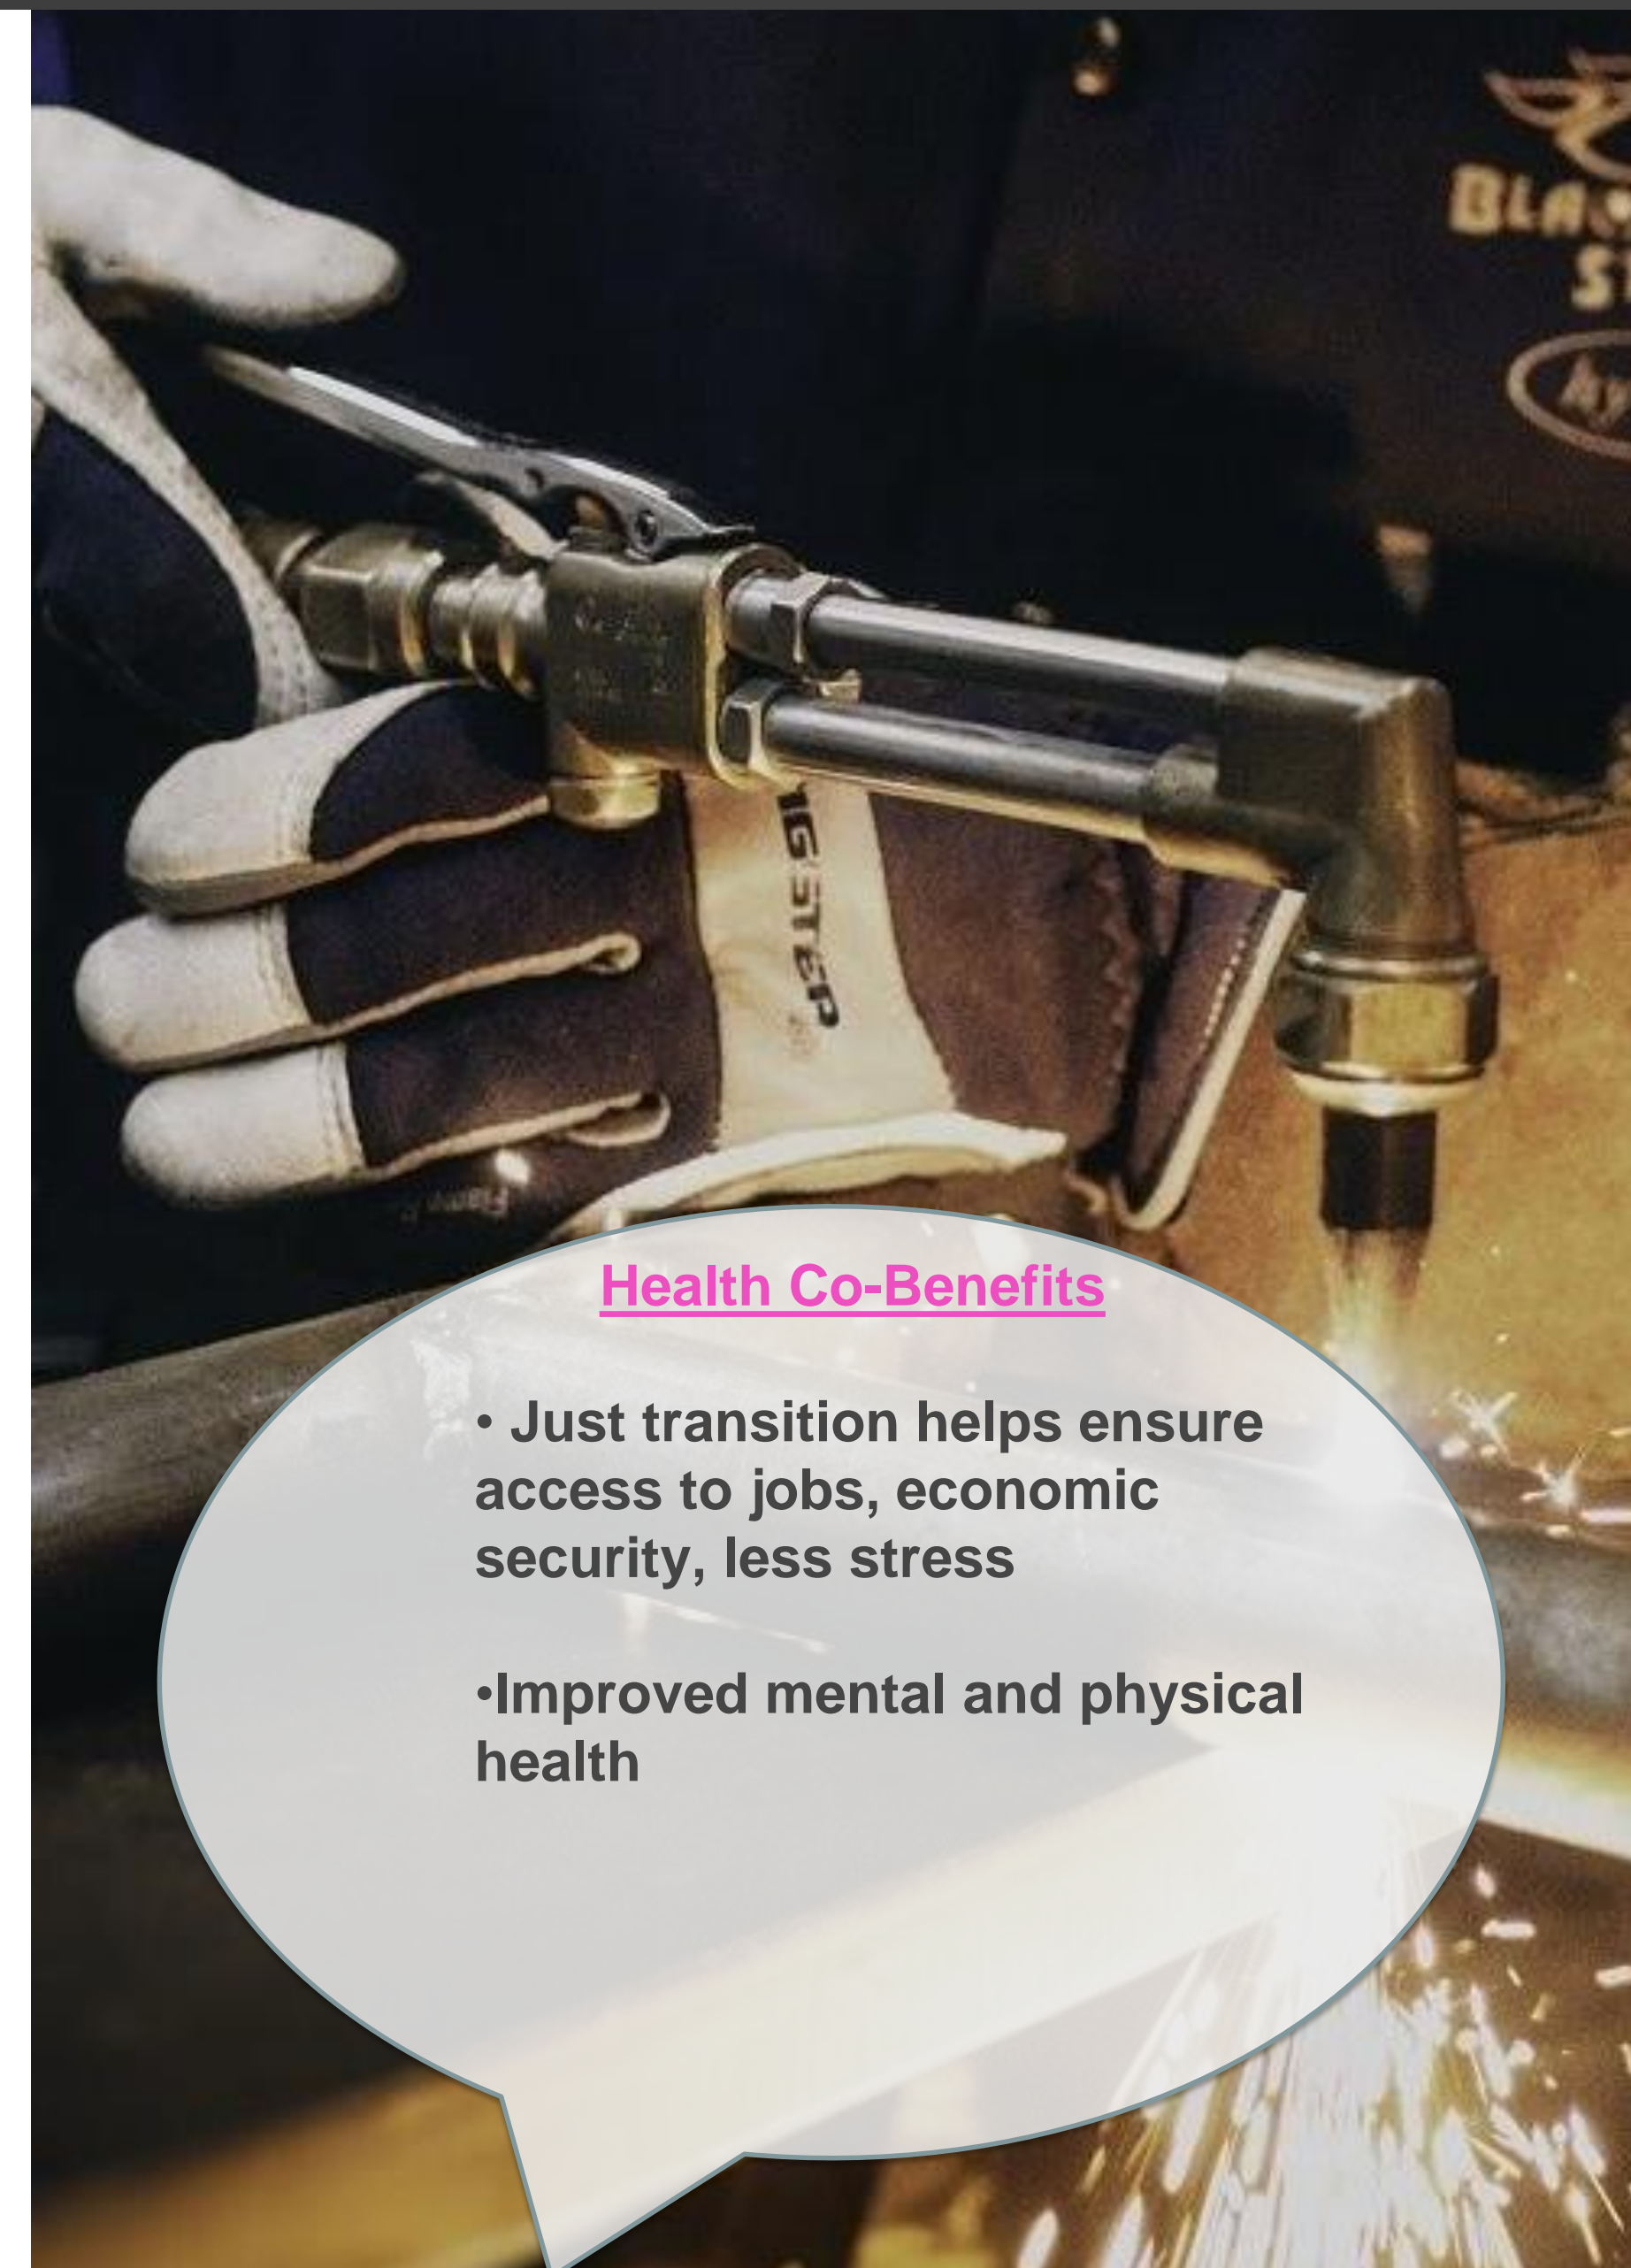

### Summit goal:

Generate more ambitious commitments from the private sector related to three elements:

1. Reach 500 commitments to setting science-based targets (SBTs)
2. Build climate resilient supply chains and communities
3. Make a just transition to climate-friendly economies

### How can my organization engage?

Contact BSR to learn more: Kelly Gallo, [kgallo@bsr.org](mailto:kgallo@bsr.org)

#### Health Co-Benefits

- Just transition helps ensure access to jobs, economic security, less stress
- Improved mental and physical health

# CHALLENGE 3: SUSTAINABLE COMMUNITIES

**Sustainable buildings, cities, communities, and infrastructure are clean, healthy and livable and improve quality of life for all**

## **Summit goal:**

Demonstrate cities are leading the way to deliver sustainable communities, including transformation of transport, buildings and waste that benefits all. Seeking commitments related to three elements:

1. Transforming communities with community driven climate projects
2. Transition towards zero emission buildings
3. Advancing towards zero waste

## **How can my organization engage?**

Contact C40 to learn more: Donna Hume, [dhume@c40.org](mailto:dhume@c40.org)

# CHALLENGE 3: SUSTAINABLE COMMUNITIES

**Sustainable buildings, cities, communities, and infrastructure are clean, healthy and livable and improve quality of life for all**

## **Summit goal:**

Demonstrate cities are leading the way to deliver sustainable communities, including transformation of transport, buildings and waste that benefits all. Seeking commitments related to three elements:

1. Transforming communities with community driven climate projects
2. Transition towards zero emission buildings
3. Advancing towards zero waste

## **How can my organization engage?**

Contact C40 to learn more: Donna Hume, [dhume@c40.org](mailto:dhume@c40.org)

### Health Co-Benefits

- Active living and alternate transport modes (walk, bike, and transit) promote physical activity and improve health
- Healthy buildings promote human health
- Food Recovery, increase food security

# CHALLENGE 4: LAND AND OCEAN STEWARDSHIP

**Forests, food, lands and other ecosystems play a critical role in mitigating climate change and making our world more resilient, while also ensuring sufficient food supplies for a growing population**

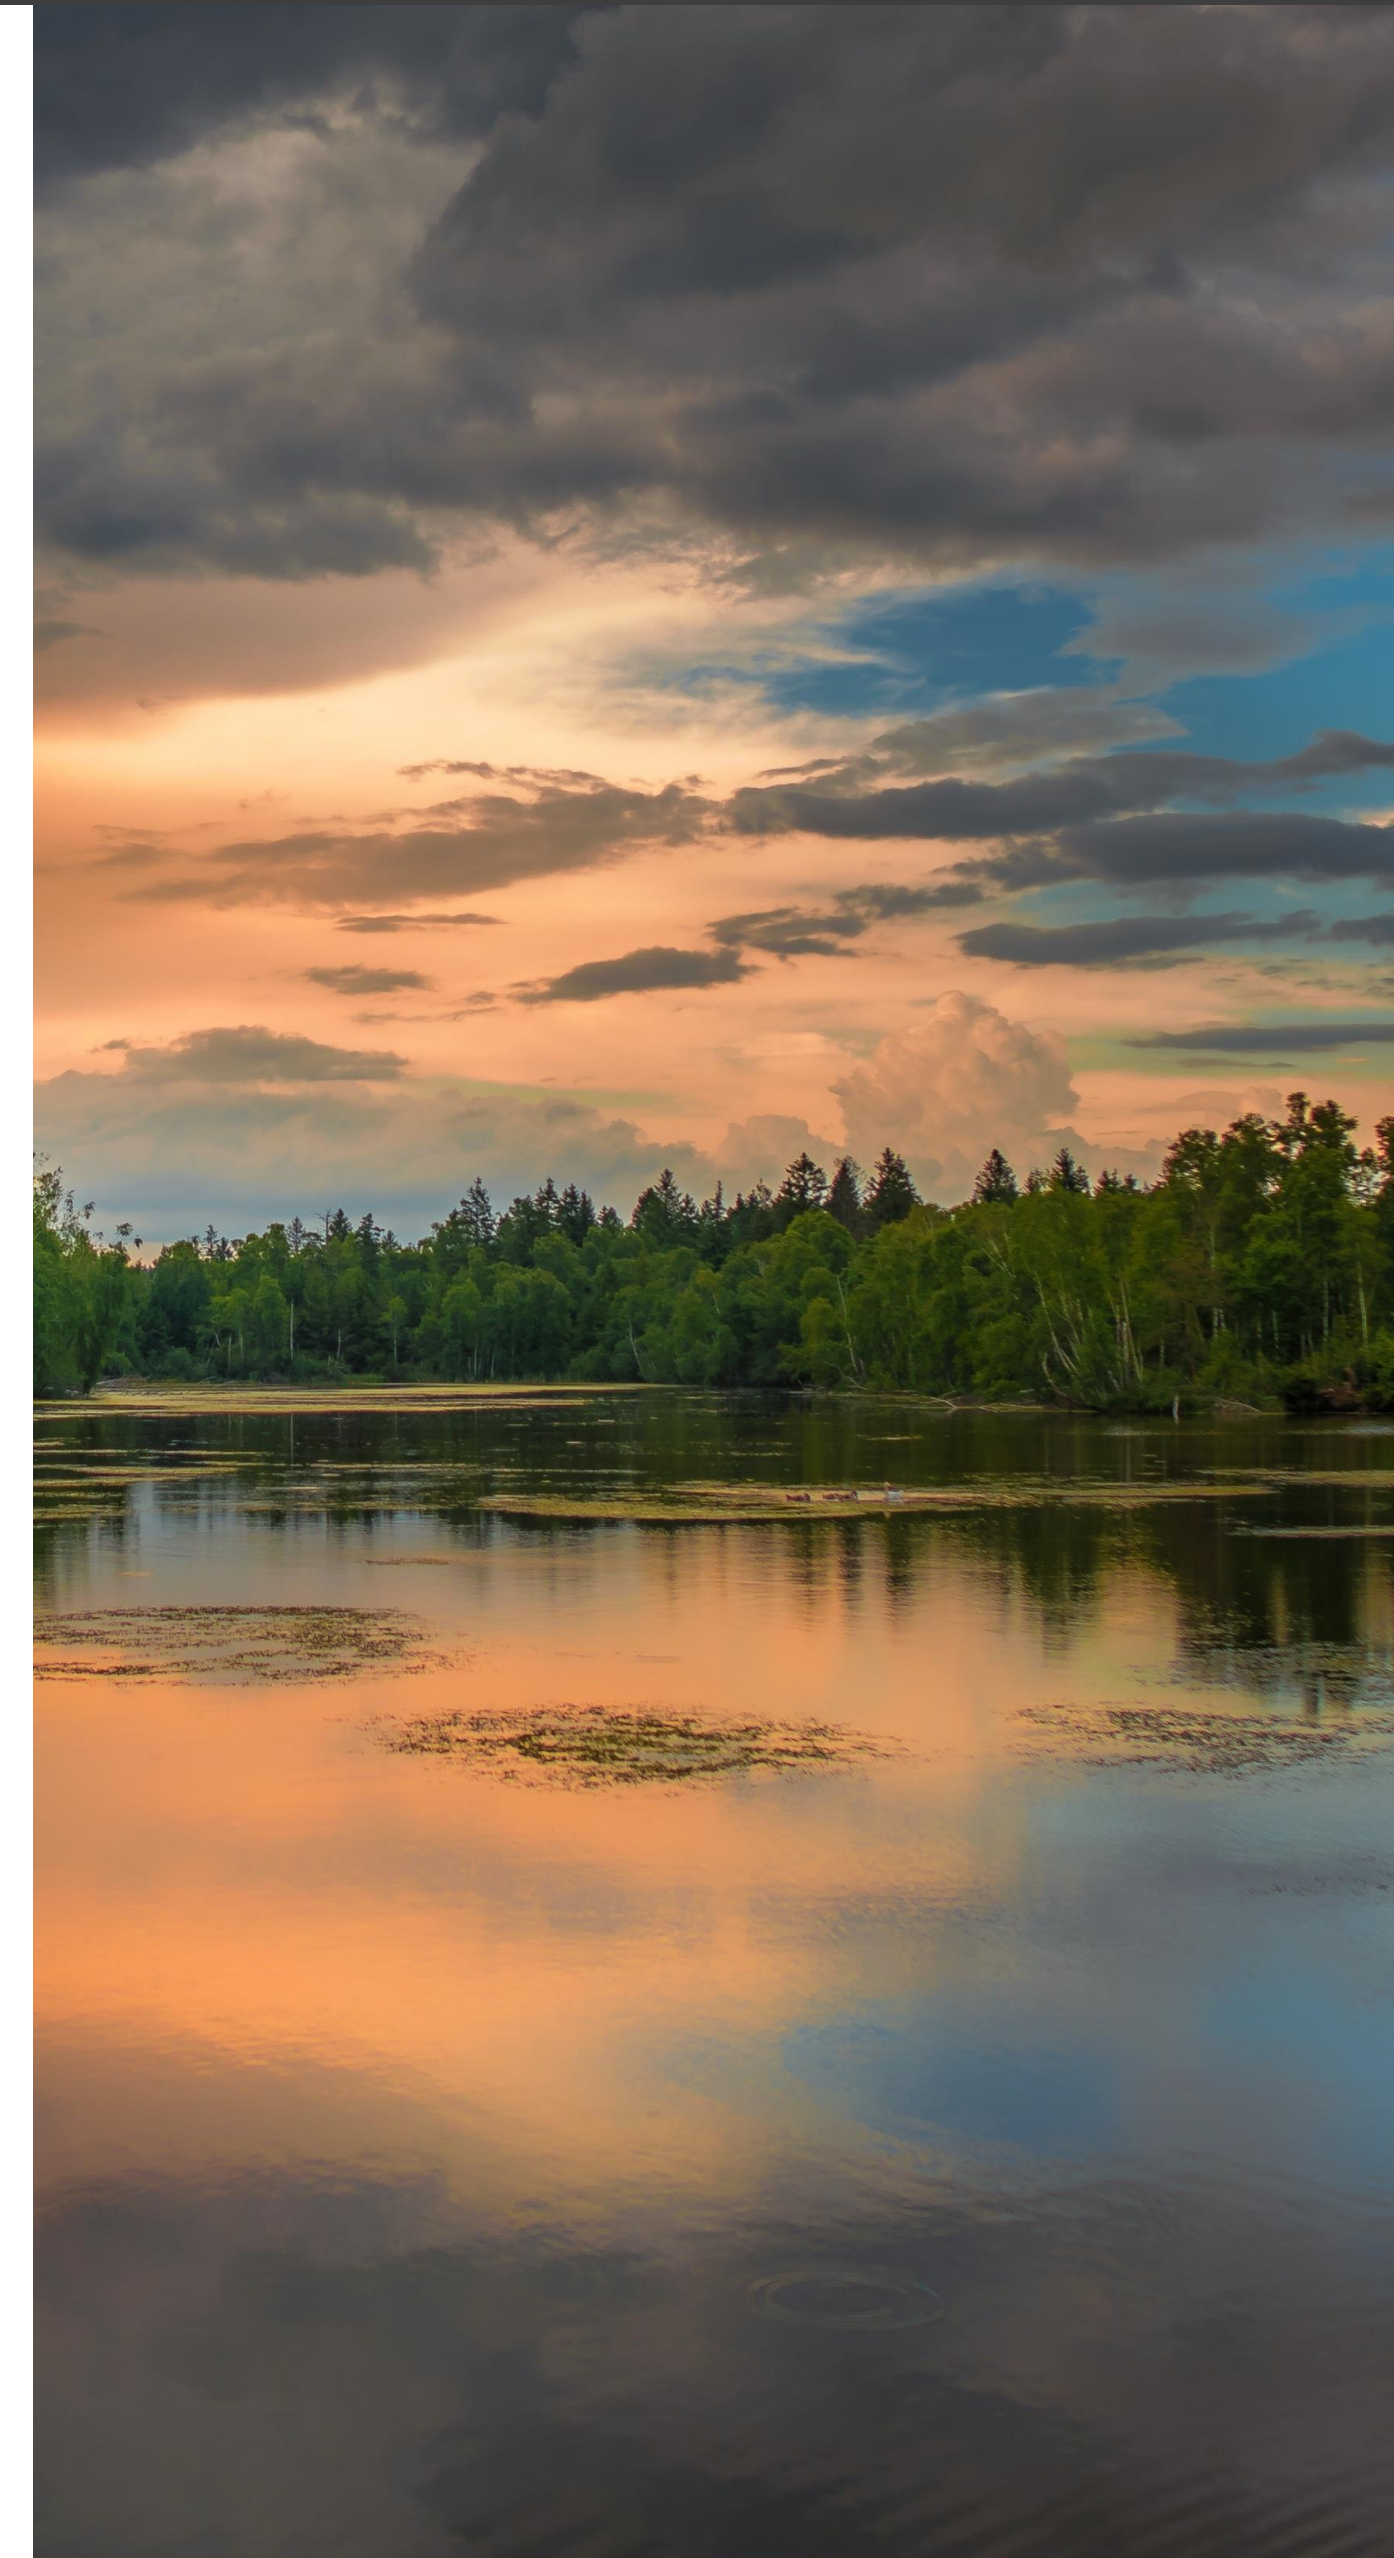

## **Summit goal:**

Pursuing commitments in line with four elements

1. Support healthy citizens and food systems
2. Restore and conserve productive and resilient landscapes that deliver climate solutions
3. Technical and financing support to bring tools to new actors
4. Transparency, business engagement and investment

## **How can my organization engage?**

Contact the World Wildlife Fund to learn more: [gmaricle@wwfint.org](mailto:gmaricle@wwfint.org)

# CHALLENGE 4: LAND AND OCEAN STEWARDSHIP

Forests, food, lands and other ecosystems play a critical role in mitigating climate change and making our world more resilient, while also ensuring sufficient food supplies for a growing population

## Summit goal:

Pursuing commitments in line with four elements

1. Support healthy citizens and food systems
2. Restore and conserve productive and resilient landscapes that deliver climate solutions
3. Technical and financing support to bring tools to new actors
4. Transparency, business engagement and investment

## How can my organization engage?

Contact the World Wildlife Fund to learn more: [gmaricle@wwfint.org](mailto:gmaricle@wwfint.org)

### Health Co-Benefits

- Healthier diet, less chronic disease
- Preserve food sources, land conservation, improve food security
- Oceans impact economy and food sources

**Investments are mobilized on the scale needed to achieve the Paris Agreement, spur innovation and accelerate a clean and resilient economy**

**An overview of the agenda:**

Investors, consistent with their fiduciary duties to their clients and beneficiaries, are encouraged to act in one or more of the following four areas: Investment, corporate engagement, investor disclosure and Policy advocacy

**How can my company engage?**

Contact Ceres to learn more and the Challenge: Chris Fox,  
[fox@ceres.org](mailto:fox@ceres.org)

**Investments are mobilized on the scale needed to achieve the Paris Agreement, spur innovation and accelerate a clean and resilient economy**

## **An overview of the agenda:**

Investors, consistent with their fiduciary duties to their clients and beneficiaries, are encouraged to act in one or more of the following four areas: Investment, corporate engagement, investor disclosure and Policy advocacy

## **How can my company engage?**

Contact Ceres to learn more and the Challenge: Chris Fox,  
[fox@ceres.org](mailto:fox@ceres.org)

### Health Co-Benefits

- Investment can invest in co-benefit solutions such as resilience
- Stable investments are important for economic stability, an important social determinant of health

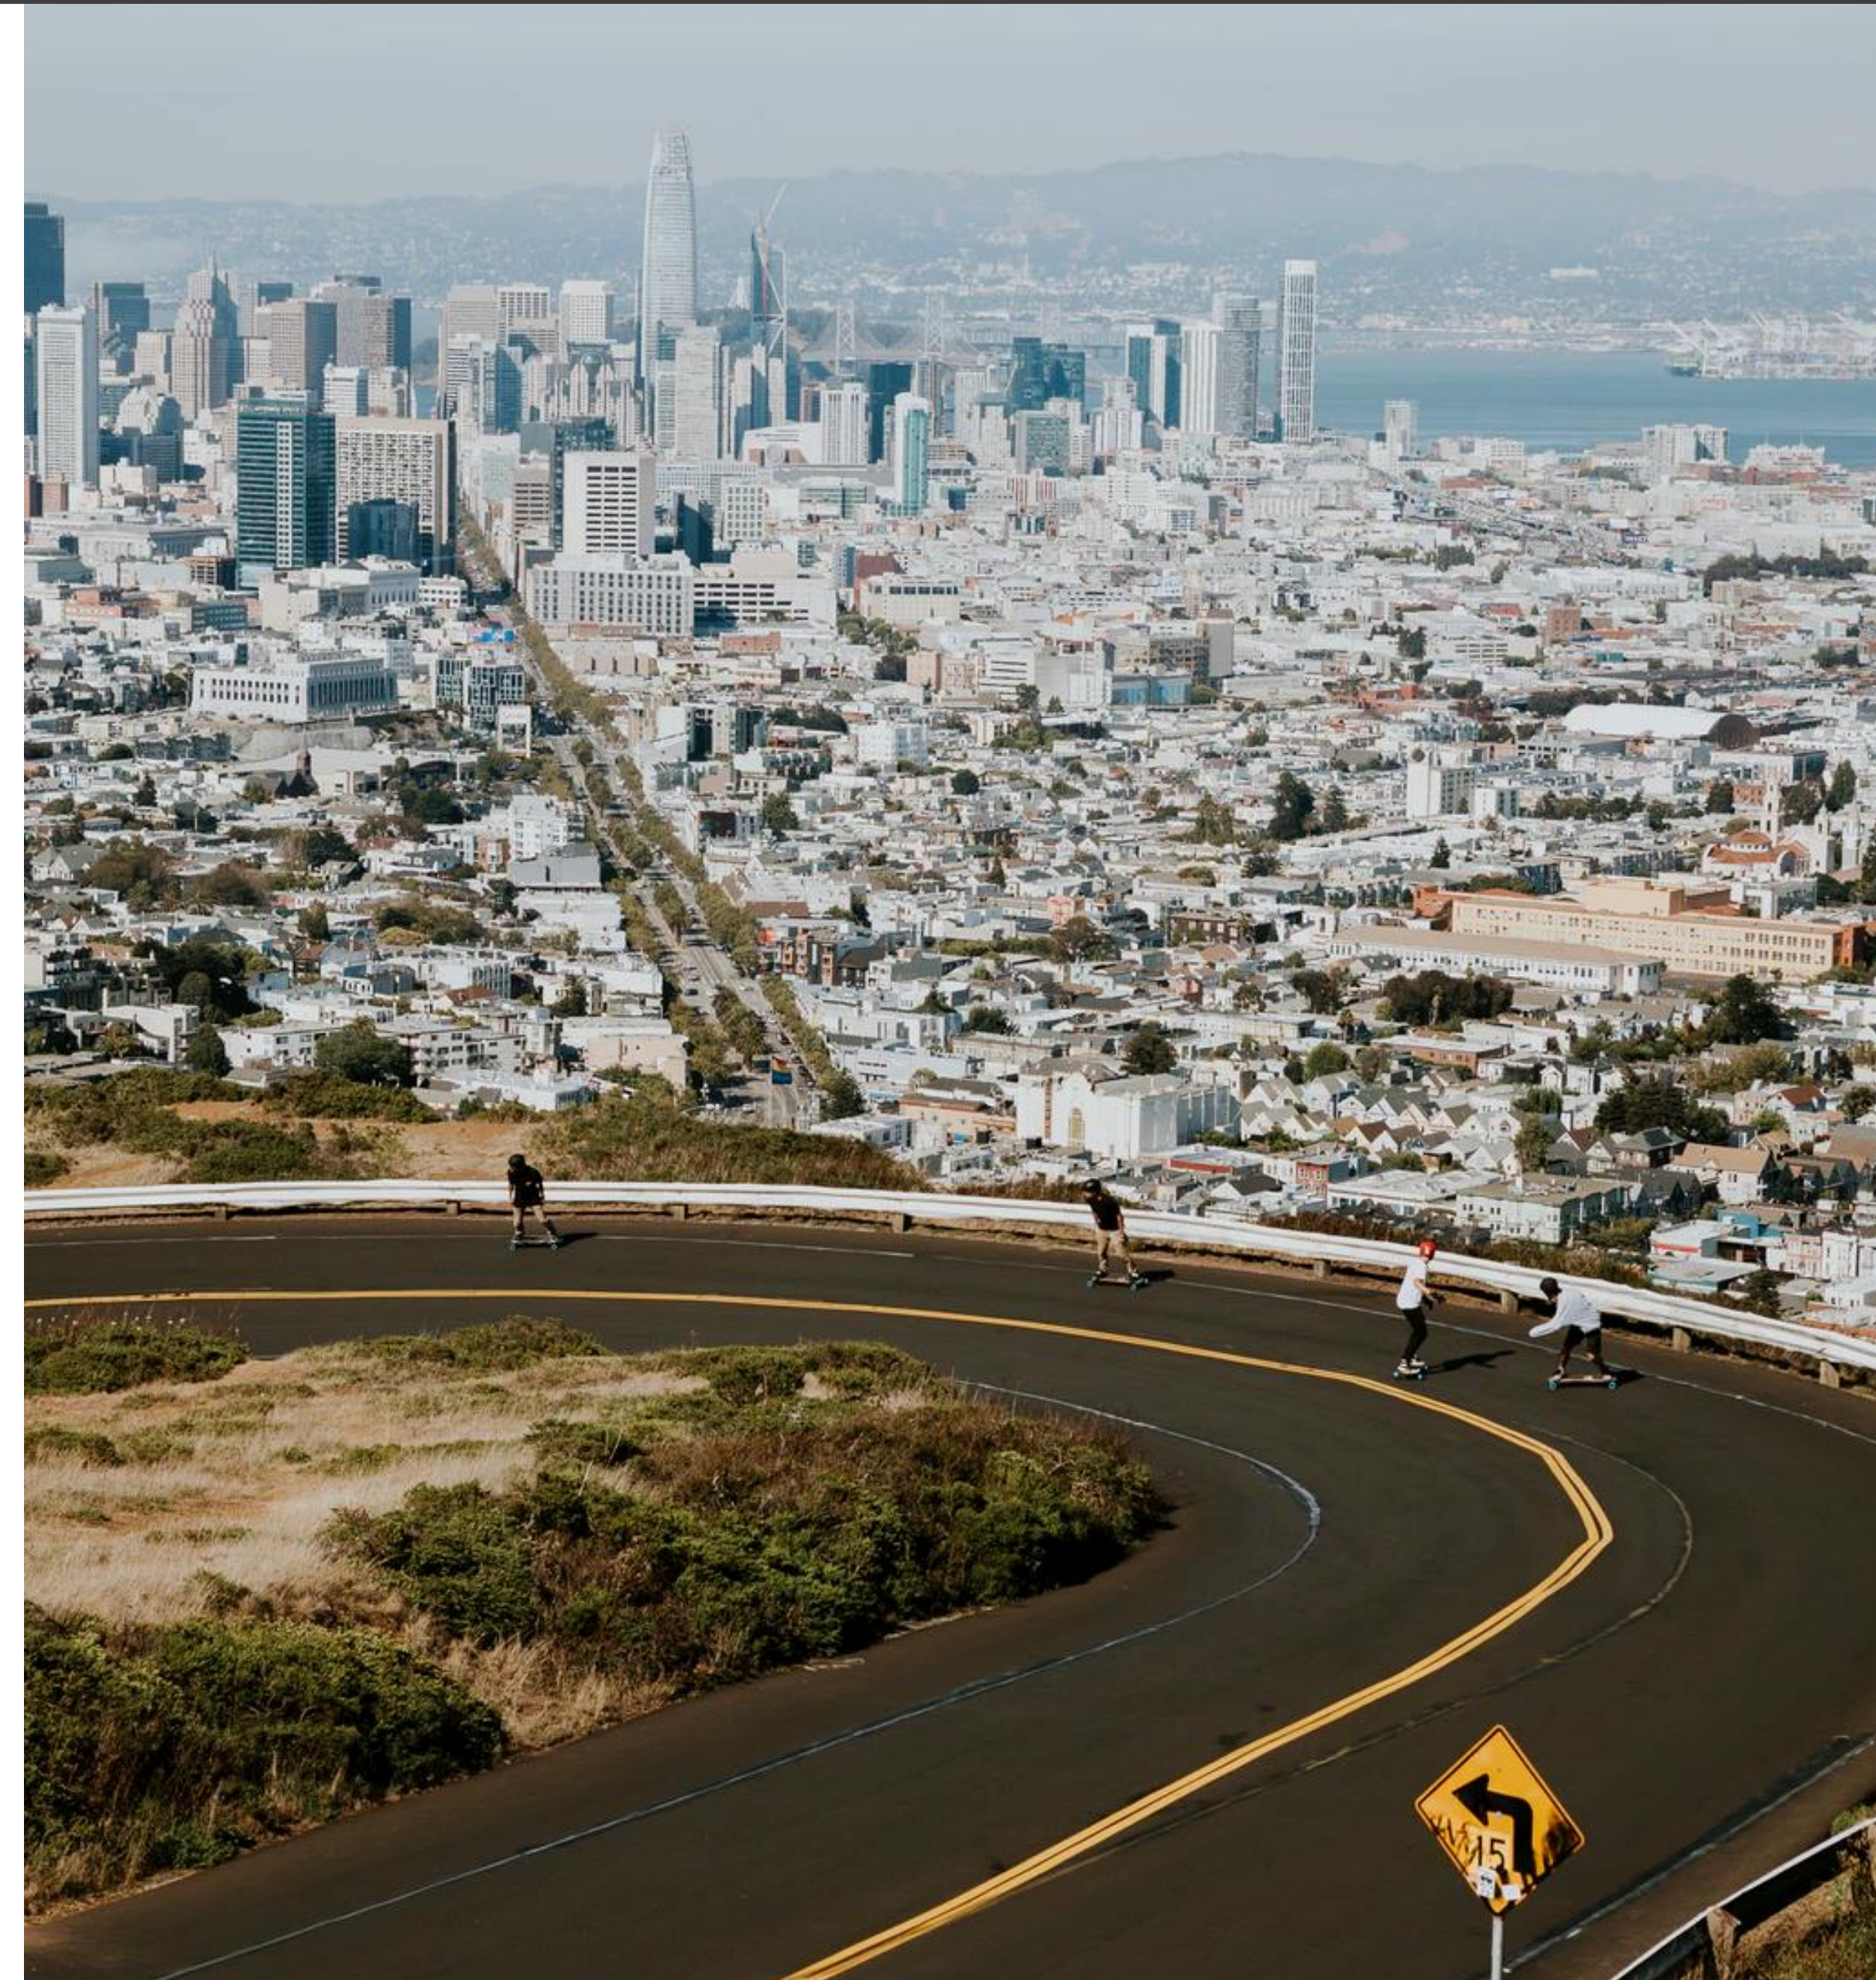

Momentum is building across the globe via activations and bold announcements where people are coming together to **build action and support around climate change.**

## The summit will feature:

- Engaging leaders and speakers from across the globe
- Highlight commitments made by participants
- Will have a health breakout session

Additionally, the Summit will play an important role in the 2018 climate calendar along with key events like:

- G7 Summit (Canada, June)
- **Global Climate Action Summit (San Francisco, September)**
- Climate Week / UNGA (New York, September)
- COP 24 (Poland, December)

## Affiliated Events

# AFFILIATE EVENTS

- Hundreds of community events will take place across San Francisco, and beyond, before, after, and alongside the Summit.
- Health co-benefits, relationships, and considerations will be featured in many affiliated events
- Affiliate events will cover topics such as:
  - Health Events
  - Carbon pricing
  - Healthy Food Systems
  - Air Quality
  - Science Day
  - Climate security and migration
  - Oceans
  - Forests
  - Clean transportation

# Opportunities for Engagement

Summit participants will be expected to:

- **Bring proof of progress/report** on past commitments they have made
- **Make new commitments to action** that will reduce their emissions further

The Summit will culminate in a **Call to Action to nations — and to everyone — to step up their ambition under the Paris Agreement**, and to limit warming to well below 2 degrees Celsius.

**The world is moving; now is the time to Take Ambition to the Next Level.**

- Mobilize your communities and networks to make and bring bold pledges to the summit
- Broader vision for climate communications of themes of the climate summit integrating excitement of health messaging
  - Op Eds
  - Social Media
  - Press releases
  - Announcements
- Contribute and share resources
- Host a live stream party and take action
- Attend affiliated events
